

Kenny Wayne Shepherd — Voodoo Child (Slight Return)

v4 graphic · Blue on Black CD single, 1997 (Trouble Is... session rig) · Eb-standard · top-down line-art board view

Guitar: Fender Ultra Luxe Strat · bridge / neck
Strings: .011–.058 · Pick: Dunlop heavy

Pan: Twin ~10 o'clock · Blues Deluxe ~2 o'clock (FOH spread per KWS)

● **Verified** — KWS published Bassman numbers (MusicRadar 2018); Tone Master Twin reissue match

● **Inferred** — Blues Deluxe in Vibro-King role; closest 6L6 mid-wattage Fender; back off volume short of fizz

Provenance: ■ verified (KWS published) ■ inferred (analog/translated) ■ assumed (interpolated)

Engagement: ■ always on ■ section-scoped

v4 changes: all five pedals drawn as top-down line-art (style ref: sixstringsensei.com pedalboard diagrams). Each pedal recognizable by its actual silhouette, brand, and knob layout — uniformity is in the drawing technique (1.4px black outline, white fill, black-filled knobs with white indicator at the set angle, 8–11px knob radius scaled per pedal). Settings annotated at each knob (label above, value below) so position-vs-numbers cross-check is glanceable. Wah toggles labeled in the strip beneath the pedal because they aren't rotary controls. Amps unchanged. **Knob convention:** 7 o'clock → 5 o'clock sweep (300°); white indicator marks the dial position. Amp knobs use 0–10 numeric (0=7 o'clock, 5=12 o'clock, 10=5 o'clock).
